

More and More Businesses are *CONNECTING with their Fleets*

Our customers love Networkfleet! Read about how customers in various industries have improved efficiency of their operations, streamlined maintenance activities and have achieved one of the fastest return on investments in the industry.

Service/Repair

"Because the employees know they are being monitored and will have to pay the company for personal use, we have seen the amount of unauthorized driving go down."

Director of Operations, O.C. Communications
Number of Vehicles: 84 Customer Since: Mar 04

"Over 50% of our drivers were speeding on a regular basis. One vehicle even reached 93. Thanks to this technology we have been able to encourage safe driving."

Fleet Supervisor, Coast Plumbing, Heating & Air
Number of Vehicles: 26 Customer Since: Mar 04

"When you're trying to manage a fleet of vehicles that you never see, having the diagnostic information before the vehicle goes into the shop helps us make sure the repair shop is fixing the right problem"

Operations Manager, Standard Coffee Service
Number of Vehicles: 51 Customer Since: Sept 04

Distribution/Transportation

"Networkcar has helped us dispatch our service technicians more efficiently."

Vice President, Merry X-Ray Chemical Corporation
Number of Vehicles: 25 Customer Since: May 04

"The advantage of Networkcar is the significant savings on both installation and monthly fees over other GPS systems."

Controller, Dandy Amusements International Inc
Number of Vehicles: 13 Customer Since: Nov 03

"We saved \$400,000 this year in labor costs with Networkfleet."

Vice President of Finance and Administration
Hoffman Southwest,
largest U.S. Roto-Rooter
Number of Vehicles: 378
Customer Since: May 04

"We'd recommend Networkcar to any transportation business out there."

Fleet Manager
Cloud 9 Shuttle
Number of Vehicles: 101
Customer Since: Apr 04

Government

“The system also helps us improve maintenance since we now have up-to-the minute information on the operating condition of each vehicle.”

Fleet Manager, Southwest Region Fleet Transportation, U.S. Marine Corps
Number of Vehicles: 380 Customer Since: Jul 03

“We’ve found an extra bonus in the fact that Networkfleet will immediately email us a message should something go wrong with the vehicle, like a misfire or hard start.”

Fleet Public Works Division Manager, City of Napa
Number of Vehicles: 44 Customer Since: May 04

“With Networkcar, the city is now able to verify customer complaints and ensure that unsafe driver behavior is addressed.”

Fleet Manager, City of Glendora
Number of Vehicles: 44 Customer Since: Mar 04

“We fully believe we are saving tax-payer dollars by using Networkcar. The sooner we get to an accident, the faster traffic will flow again.”

Fleet Manager, Arizona Department of Transportation
Number of Vehicles: 47 Customer Since: Feb 04
